## Plesk Hosting Benefits

### User friendliness

Web control panel with icon based interface that have the same look and feel as Windows™ XP.

### Flexibility

- > You can create the plan instantly whenever you want.
- > You can suspend or delete any domain as you like.
- > You have full control over the disk space allocation.
- > You can share the disk space for up to 10 domain names.
- > You can have up to 10 MySQL or MSDE databases.
- > You can check statistics for each domain hosted (disk usage, bandwidth used, etc.).
- > Web based DNS record management.

### Branding

- > Upload individual logos to establish and strengthen your brand presence. Free Net remains anonymous to your clients.
- > Set up your own primary and secondary DNS servers, i.e ns1.yourdomainname.com and ns2.yourdomainname.com (requires 2 dedicated IP addresses, installation charges apply).

### Additional Features

- > SSL support (requires a dedicated IP address).
- > Backup/Restore utility.
- > Schedule regular tasks via the Scheduler Manager.
- > Install popular softwares such as Mambo, PostNuke, osCommerce, phpBB with a few mouseclicks.

### Cost savings

- > RM 1300 for 25 GB space in total, i.e 1 GB = RM 52!  
Save tremendously off our retail price!!
